

2009 PPP Leadership Assembly

The Partnership for Philanthropic Planning Leadership Assembly meeting consists of two parts: the PPP Business Meeting and the Council Leaders Workshop.

The Business Meeting is PPP's annual report to our members, and the Workshop is a training and networking opportunity to help councils strengthen their programs and membership. The Leadership Assembly is not only a governance meeting for PPP; it's a time to both learn and share knowledge with fellow council leaders.

The reports presented during the Business Meeting are organized according to PPP's Ends Policies. The Ends Policies are statements of the specific outcomes that PPP exists to achieve. All of PPP's programs and activities are designed to support these ends. PPP's complete Ends Policies can be read by clicking [here](#). Your council is encouraged to use these as a template for developing similar outcomes statements to guide your activities.

Many of the documents in the Council Leadership Resources are in PDF format. You will need Adobe Reader to view these PDF documents.
