

Are You Overlooking One of the Partnerships's Biggest Council Benefits?

Save your council time, energy, frustration, and busywork by taking advantage of the FREE Integrated Council Data Management System (ICDMS). ICDMS takes on all the time-consuming paperwork of membership management, so that your volunteers or administrator can focus more intently on your council's planned giving activities and outreach. And this service is FREE to all Partnership member planned giving councils.

Here's what ICDMS can do for you:

- Collects dues
- Sends councils weekly membership reports, payments, and copies of all invoices
- Keeps up-to-date contact information for members
- Provides monthly reports on lapsed members, if applicable
- Provides a periodic list of Partnership-only members for council marketing
- Sends out membership applications (upon request), renewal notices and reminders

ICDMS helps you keep track of your existing members, while giving you the time to seek out new members! Find out what a majority of the Partnership's member councils already know—that ICDMS is the way to go for hassle free council management at no expense to your council.

Call the Partnership's Membership Operations Manager, Belinda Gillett for additional details on this exceptional council service:(317) 269-6274 ext. 25, or e-mail bgillett@pppnet.org.
